**Subject:** To Renata Hesse

Dear Renata Hesse,

Over the past 18 months I have watched the Microsoft antitrust lawsuit with great unhappiness at the way our national dollars were being spent. The Microsoft competitors were able to gather enough support to raise some concerns about the Microsoft business and use tax dollars to resolve their problems. It is now time to close the issue and move forward.

I send this letter to support the settlement that has been negotiated. There are compromises and parameters established in the settlement that should satisfy the information technology industry and allow them to move forward with their marketing strategies. I urge your acceptance of the settlement.

Sincerely,  
Brent Parker, Representative  
Utah House of Representatives  
District #5
